Rob isn't a typical teenager. He's 16 years old but he doesn't live at home with his parents because he's a chess champion. He plays chess in tournaments all over the world. He has his own teacher who travels with him so he has lessons in the morning and then in the afternoon he practises. Sometimes he doesn't want to play chess because he wants to play on his games console or talk to his friends on Skype. This week he's in Brazil but it's difficult for him because he doesn't speak Portuguese. Next week it's Canada so that's OK because he can speak English and French. He has an interesting life but sometimes he wants to go home and be with his family.

Are the sentences true (T), false (F) or doesn't say (DS)? Correct the false sentences.
